Ohne Filter Musikladen Live performance in 1976, Germany.

This video is a shining example of mid 70s Soul/Funk, tightness, pocket, and great songs. Rod Temperton on keys was the songwriting force behind Heatwave's hits including the enduring ballad "Always And Forever" present here. Rod Temperton went on to write a few other songs you may have heard: "Rock With You", "Off the Wall", and a little number entitled "Thriller." Super songwriter and producer Rod Temperton is a bit reclusive, so this early footage of him and his tight band is quite interesting. Audio/Video is A+
