"We don't rehearse so we're looking at something called zero gravity - the music we play is different every night. I don't mean just different solos but different everything. It's a daredevil leap into the unknown because that's the way the world is today." - Wayne Shorter (<http://www.tribune.ie/arts/music/article/2008/jun/15/and-all-that-jazz/>)

Contrast clause: This was uploaded about two weeks ago by joerg as an mp2 satellite broadcast (torrent 200940). The present upgrade is analog FM > 24bit PCM. One continuous set of 62 minutes, split for easier handling into 5 tracks. The title is given as "Zero Gravity". When asked about the set list, the musicians probably didn't bother to sort out the compositions.

TT 63:19
FM broadcast (DRS 2, 2008/06/13)

Analog FM > 24bit PCM (Digidesign
Mbox 2) > flac (xACT)
