'AND THE REST OF YOU, IF YOU'LL JUST RATTLE YOUR JEWELLRY...'

Disc 2: October 1963 - December 1963

This is the second volume in a comprehensive collection of major tv appearances from 1962 to 1966, gathered together from many sources to provide high quality video and audio throughout. Weren't there at the time? Well never mind because this set is the next best thing. So dust off that old 405 line telly and copy of Radio Times, and journey through The Beatles' television opus.

1. Drop In - 12:02

Rec: Narrenteatern, Stockholm, Sweden, 30 Oct 1963.

2. The Royal Variety Show (includes Harry Secombe intro + encore. Beatles songs are tc free) - 16:32

Rec: Prince Of Wales Theatre, London, 4 Nov 1963.

3. Morecambe & Wise (upgraded no tc) - 11:33

Rec: Studio C, Elstree Studio Centre, Borehamwood, 2 Dec 1963.

4. Scene at 6.30: I Want To Hold Your Hand, Chat with Ken Dodd (full 15 minutes), This Boy - 19:54

5. It's The Beatles (audio only for first part, then reconstruction of upgraded last four songs) - 29:10

Rec: Empire Theatre, Liverpool, 7 Dec 1963.

Hobs, Apes & Jones

This 8 part set is intended to compliment Unsurpassed Promos, gathering together the remaining unreleased TV appearances.

A word from Hobs:

I've reconstructed each show from the most up to date sources and offered a remastered audio option for all mimed appearances. Several people have contributed new source material for which I am indebted. As a result, virtually the entire set is highly watchable, with very little timecoded or poor quality footage. Each disc is thoroughly indexed and menued, allowing one to easily search through the programmes.

Some of the shows I've done extensive work on including Paris, The Beatles In Nederland, Melbourne, Around The Beatles, Big Night Out, Ready Steady Go, Shea Stadium and the Budokan. Some of this material has appeared on other titles I've done, sometimes in PAL. But here it is all in NTSC.

NOTE: Although I've included some studio based talk appearances, I've steered clear of the sort of news chat items which would otherwise have clogged up these discs. Because this is a collection of TV appearances, I also haven't included any performance footage captured by news cameras or shown in cinemas - this includes footage from Manchester, Sydney, Washington, the Hollywood Bowl and the featurette Music! The four Ed Sullivan shows are also not to be found here as they have been released in their complete form on commercial dvd (with the Washington concert likely to follow in due course). That said, there is still much here to enjoy...

Note that this is a non-profit fan project intended for free distribution among the Fabs' most dedicated followers. Please don't SELL copies of these discs, and support any future official releases of this material (unlikely as that may be...)
