

THE CARPENTERS

Top Of The World 4 Volume Set  
Volume 4

A nice collection of TV performances by the Carpenters. Almost all in excellent (minus) quality and in stereo or mono. Comes with menu and song selection. NTSC. Aspect ratio 4:3.

Some clips can be found in better quality elsewhere, especially the BBC clips. Quality for this final volume is very good only. The Talk Of The Town show and Japan '72 has never appeared in better quality.
