

# Todd Rundgren

The Stambaugh  
Youngstown  
April 23, 1991

Here is the 'Second Wind' tour show I promised earlier. This is also a complete show without cuts or fades. Straight from the soundboard with a little audio tweaking by PR. This was a great tour by a great band....and Todd was dropped by Warner Bros. after the record's relatively poor sales. Too bad, as this was a smokin' lineup that rocked every night. Hope you dig it!!
