

America

w/ DJ Maxanne
WBCN-FM Studios
Boston, Mass.
February 12, 1972

I was asked to put this up by one of my taping buddies.

While I was running ads in the Boston Phoenix looking for Tea Party shows, a guy called me to say he had taped a few things off the radio....was I interested? A real nice person living in the Cambridge Mass area. He was using an outboard Dolby unit and was meticulous about keeping it calibrated. Sound is wonderful...

Looks like they were playing at Lennie's On-the-Turnpike (now located at the Village Green, on Route One in Danvers Mass) with Jay Leno.....Just listen to Maxanne in between songs.

As with all Digital releases, this is for free trade or blank media trade only. Not to be bought or sold. Keep the spirit of trading alive and well. Nothing has been edited out or EQ'd!!
