

Planet Earth Rock & Roll Orchestra PERRO Sessions ('70 & '71) *New Version*

This compilation has circulated for years. To my ears, this is the best transfer.

This comes from one of the administrators at another Bit Torrent site (Jerome's Place):

"This is a more complete version than the one originally seeded on the JGB Mega Tree that I never circulated. It was intended to be part of Round 16 of the JGB Mega Tree but, for whatever reason, never made it. I've been sitting on it for about 4 years and just rediscovered it this week.

For those that have never heard the PERRO Sessions, go here for details: <http://www.philzone.com/philbase/perro.html>

PS - This is NOT the PERRO Ruffs as mentioned on the website"
