

Don Cherry

unreleased studio session 1963 ? Savoy label ?

This is a more complete version of Don Cherry's unissued 1963 (or 1964?) sessions for Savoy. I realized I had this after a shorter version was uploaded earlier today: <http://www.dimeadozen.org/torrents-details.php?id=96848>. The four tracks in that torrent would seem to correspond to the first six of this one. This longer version sounds brighter, with more hiss - though it might simply be louder.

The other torrent gives the following information:

Don Cherry Quintet, NYC, Stereo Sound Studios 6.01.1963 or 1964

Don Cherry cor
Pharoah Sanders ts
Joseph Scianini p
David Izenzon b
J. C. Moses dr
