Feel free to do what ever you want with this music here, covert to MP3,  
seed on other  
sites, pirate it and make millions. Really that is not in my hands. I share  
because  
the music was made to be heard. ALWAYS give thanks and respect to  
the artists that  
created the music, I find it hard to believe they would not want it shared  
in all possible  
ways.
