

This is a soundboard recording, very good quality other than microgaps between tracks. I rate it a B+/A-.

Dean played the Apollo Victoria Theatre from Monday, June 13, to Sunday, June 19, 1983. I've scoured the Web and haven't been able to learn which date this comes from, or if perhaps it was compiled from more than one performance. (It has also circulated on DVD.) If anyone has more information, please post it. I also don't have any artwork.

I have a handful of further Dino titles, but probably nothing that can be seeded here, as they're broadcast compilations that I've been completely unable to unearth any recording details on. If there are any Dino experts out there, and titles like (for example) "Some Enchanted Evening: Radio Transcripts" or "Ain't That a Kick: Unreleased Performances, 1949-1959" mean something to you, please let me know.

Of course, the numerous Dean Martin audio AND video selections I have featuring a certain very close pal of his are now off limits. Pity.

It was fun while it lasted though, wasn't it?
