

THE MONKEES

Commericals And More

This is a very cool collection of Monkees commercial spots with a couple interviews and some backing track outtakes. The Head spots are some very wierd bits but what would you expect considering the movie.

Dolenz's spots are a laugh as well. Peter Tork's PSA spots for speed are a riot, obviously not serious. Listen for Mel Blanc doing Bugs Bunny with the boys pushing Kool-Aid on the unsuspecting kids.

I have no idea of the lineage. I received this back in 2003 in a trade with a guy from England.
