Porte de Pantin  
Paris  
September 27, 1975

FM master recorded by BULLE75  
of the french radio station FRANCE INTER  
using an AGFA SM super-ferro-dynamic 90+6 cassette

transfer: master cassette played back on-nak cr7e- azimuth corrected-->  
edirolog-->  
HD-- cd wave--nero smoothing-- flac(8)

mind you..... the french Dj talks between all songs and sometimes it  
affects the first notes of the song ..... i tracked in general after he had  
(almost) shut up !  
...or in his words: "pas de panic"

this is a double feature on radio "france inter"  
the first band that night was Poco

i assembled the cd as to be continuiuos from the poco opening .. thats why  
it starts unsmoothed

transferred and uploaded to dime by hanwaker march 2008

one more for your road BULLE75 !! it's my pleasure to upload your tapes!
