OK, here's my first attempt at uploading a new show, hope I'm doing everything right... I taped this myself way back when from Radio Bremen and recently digitized it. The station was not quite nearby, so there's a little bit of hiss and static, but the music itself comes through fine. Reckon it's in the A-/B+ quality range all in all. Haven't ever seen this one around in trading circles before, anyway...and the music itself is simply wonderful...

No tracklist, I'm afraid... disc 1 is a long medley split in two parts by tape flip, disc 2 are 4 separate tracks.
