

Afrika Now - Afrika heute, Live in Munich/Germany at the Jazz Fest "JAZZ NOW!" (a special event in cooperation with the Olympic Games 1972 in Munich), August 18, 1972.  
Promoter: Joachim Ernst Behrendt

Source: probably SBD>Reel Tape (low gen!)>trade on CDR>EAC Rip (Secure Modus), Flac Frontend, Level 6  
Sound: great sound!

The show was aired at TV (at that time SWF) 1972 and another part one year later 1973. But this source was recorded on reel Tape. So I really don't know if the original source is from TV or a separate SBD. For me it seems the last one, because the sound is really amazing if you compared it with the age of that recording.

Please find also attached a copy of the original script from the SWF for the TV Broadcast from 1972-1973.
